

Emerald Village

BLACK LIGHT *Night-time* Underground MINE TOUR!

*Like nothing
you've ever seen!*

331 McKinney Mine Road
Little Switzerland, NC 28749
(828) 765-6463

BLACK LIGHT

is the common name for ultraviolet light which is invisible to humans. Discover a hidden underground world of beauty at night in the Bon Ami Mine, one of the few places in the world you can see this rare phenomenon underground. Extensive deposits of Hyalite Opal and other rare minerals respond with fantastic colors. Special guided tour on select nights lasts about 45 minutes. Bring your camera for some awesome photos!

EMERALD VILLAGE
